Key Discussion Areas

Understand why traditional SecOps models struggle to address the unique demands of cloud environments.

Explore how the cloud threat landscape is changing and why traditional detection and response methods need a modern upgrade.

Learn how to design an effective framework tailored for cloud security needs.

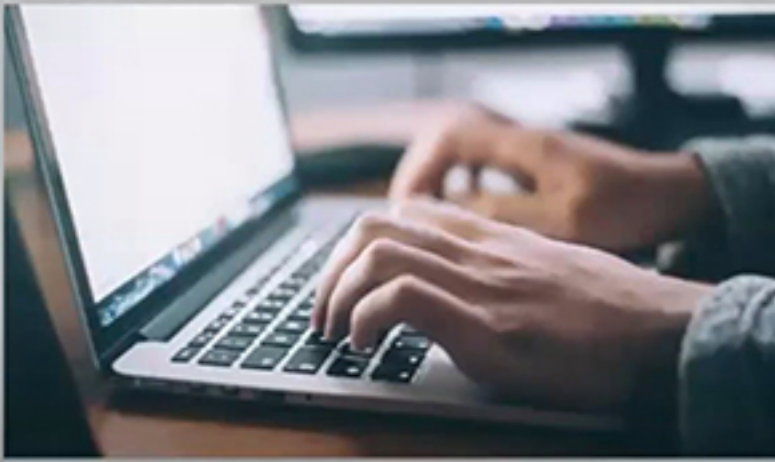

Discover the 5/5/5 Benchmark and its role in securing critical business operations and outcomes.

Glimpses of Sysdig Technologies Webinar

sysdig webinar

5 Minutes to Initiate Response

Use the flexibility of the cloud to initiate tactical response actions within 5 minutes of a high-fidelity detection.
